### Connie's Flowers Of Stuart Receives International Award

**Family Owned And Operated Since 1956,  
Connie's Flowers Now Recognized  
As FTD Master Florist**

Connie's Flowers of Stuart was recently recognized as an FTD Master Florist, a prestigious award given by the floral industry's international network, Florist Transworld Delivery Group (FTD). Out of 45,000 FTD florists worldwide, only 20 percent have received the Master Florist designation.

Since its original founding by local resident Connie Taylor in 1956, Connie's Flowers has remained a well-known and successful small business in Martin County for more than a half century. Today, it is family-owned and operated by Bob and Dawn Miller, along with their daughter, Devinee Miller, and is one of only a handful of Master Florists in South Florida.

"We had no idea the Master Florist award was coming. The FTD representative came to our store as a 'secret shopper.' We later found out we had passed all of the qualifications with flying colors," commented Dawn Miller. "It's an important distinction and honor to be included among the top florists throughout the world." As a member of the FTD network, Connie's Flowers is able to send floral orders anywhere in the world, while offering custom arrangements and bouquets for local delivery throughout Martin County.
