WHITICAR BOAT WORKS, INC.

Shearwater Marine, a division of Whiticar Boat Works, Inc. of Stuart, Florida is proud to announce it has been selected as a Yanmar Industrial Engine Dealer for the Treasure Coast region.

STUART — [Shearwater Marine](#), a division of Whiticar Boat Works, Inc. of Stuart, is proud to announce it has been selected by [Mastry Engine Center](#) as a Yanmar Industrial Engine Dealer for the Treasure Coast region. Shearwater Marine has been a dealer for Yanmar Marine Diesel Engines since 2002, and adding Yanmar Industrial Diesel Engines to its list of dealers strengthens the level of service it can provide the Treasure Coast outside of the marine industry.

[Yanmar Industrial Engines](#) is the largest manufacturer of diesel engines less than 100 horsepower. The engines are used in a wide variety of landscape, contracting, excavating, generators, pumps, agriculture, and off-road equipment. Yanmar Industrial offers an engine repower program to help owners prolong the use of their piece of equipment.

Shearwater Marine is proud to become a dealer for Yanmar Industrial Engines, a company with as rich a heritage its parent company, Whiticar Boat Works. "One hundred years ago, Yanmar, a family-owned business, established themselves as a leading engine maker, and today they have revolutionized the concept of reliable and efficient diesel engines world-wide," said Whiticar Boat Works President, Jim Dragseth. "Our customers are able to count on our family-owned business because of our long tradition of quality service in Stuart and throughout the Treasure Coast."

Additionally, all Yanmar facilities strive to reduce air, water and noise pollution and recycle waste materials. Dragseth noted this commitment to the environment as an additional motivation for the new partnership. "Whiticar Boat Yard was recognized by the Florida DEP with the 'Clean Boatyard' designation in 2004, and we understand the importance of connecting with companies who value maintaining a clean environment today and for future generations," he added.

Contact Shearwater Marine at 772-781-5553 for more information about how Shearwater can provide Yanmar Industrial products locally and throughout the United States.

About Shearwater Marine

Located on Florida's Treasure Coast, Shearwater Marine has been part of the boating community since 1996. Its devotion to customer service in the marine engine and generator market has made Shearwater a "go-to" resource for local and international customers. Shearwater also supports an active parts counter for retail, business, and subcontract trades. Shearwater Marine is a division of Whiticar Boat Works, Inc., a recognized leader in the marine industry since 1947.
